Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner contacted applicant's representative to discuss the reply filed 4/22/04. Examiner indicated that the rejection to claims 22-29 and 32 would be maintained in a final rejection. Examiner indicated that applicant's arguments against the inherent physical properties of the cited prior art were not timely, in that applicant failed to traverse this aspect of the rejection when it was first raised , and not persuasive since applicant failed to provide any supporting evidence. Examiner suggested canceling claims 22-29 and 32. .
